

trimax.

Groups I, II, III
approx. 8 months to
12 years • 9 to 36 kg

- high backrest for long serviceable life
- side protectors – projecting far forwards
- novel air circulation system to provide rear ventilation for the child's back
- user-friendly, centrally adjustable 5-point belt system
- softly padded comfort covers, easy to remove and washable
- large seat depth
- adjustment lever for integrated sitting and lying position
- specially padded seating

• integrated sitting or lying position

Numerous crash tests have shown that, thanks to its high backrest, the trimax more than satisfies side impact regulations.
