

with IsoFix

New Maxi-Cosi EasyFix

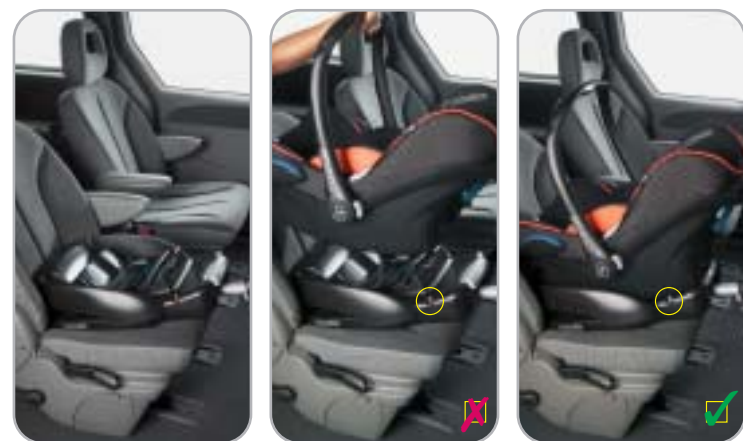

(for attachment with IsoFix or 3-point belt)

(in)Correct installation is visible immediately. Minimum chance of incorrect installation due to colour indicators.

Maxi-Cosi CabrioFix simple to install on base using click system.

- Excellent test results (in combination with Maxi-Cosi CabrioFix)
- Minimum chance of incorrect installation
- Colour indicators show clearly and immediately whether installation is right or wrong
- Leave the base fitted in the car
- Maxi-Cosi CabrioFix simple to install on base using click system (simply click the car seat onto or unclick to remove)
- Maxi-Cosi CabrioFix in combination with Maxi-Cosi EasyFix can be installed with IsoFix or 3-point belt
- Before installation always check the car type list on www.maxi-cosi.com

All Maxi-Cosi IsoFix applications can be recognised by the yellow markings on the product.

The Maxi-Cosi (without EasyFix) must always be fitted in a rearward facing position (in the opposite direction to the traffic flow) using a standard 3-point seat belt. NEVER place the Maxi-Cosi on a front seat if an airbag is fitted.

New Maxi-Cosi EasyBase

(for attachment with 3-point belt)

Excellent test results with extra support leg.
