standard

Installation in the car with a 3-point seat belt rearward facing

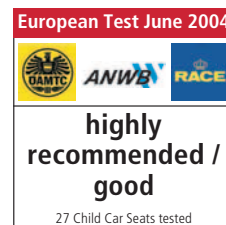

The headrest of the BABY-SAFE plus has 7 easily adjustable height positions.

The sun canopy is easy to attach and protects the little baby's head from too intense solar radiation.

The dynamic, curved design of the carry handle creates more room for placing the baby into and out of the seat.

5-Point-Harness System

ergonomically shaped carry handle, adjustable to 3 positions

extra padding to protect the fragile backs of new-born babies

softly padded fabric cover, detachable and washable
