# RÖMER BABY-SAFE

**Installation in the car** with a 3-point seat belt rearward facing

Including head support for babies up to approximately 4 months of age.

The sun canopy is easy to attach and protects the little baby's head from too intense solar radiation.

The dynamic, curved design of the carry handle creates more room for placing the baby into and out of the seat.

5-Point-Harness System

ergonomically shaped carry handle, adjustable to 3 positions

extra padding to protect the fragile backs of new-born babies

softly padded fabric cover, detachable and washable
