RÖMER KID plus 06

Installation in the car with a 3-point seat belt

With only one hand you can adjust the headrest to 11 height positions.

With one easy grip you can pull out the distance flap on the back of the seat for the reclining position.

The 3 adjustable width positions create safety and comfort at the same time.

width-adjustable seating area with improved stability of the armrests
backrest is adjustable to the angle of the vehicle seat
distance flap on the back of the seat for the reclined position
perfect belt routing for more safety
cover can be removed for washing
